FOODI Programme Outcomes

- Integrate knowledge of food science/technology/entrepreneurship principles for transformation of the food industry to produce quality, safe, sustainable, healthy food
- Critically evaluate and apply innovative technologies for positive disruption and development of the food industry
- Conduct research and adhere to legal, ethical and professional practices in food innovation
- Demonstrate the ability to perform and effectively communicate original research in interdisciplinary areas of food science, technology and entrepreneurship
- Implement standard analytical and innovative methods including digital technologies, statistical software to monitor the risks and hazards influencing food quality.
- Demonstrate responsibility in planning, resource management, supervision, problem solving and managing work within a team and collaboratively with other teams.
- Analyse the main economic and strategic issues concerning food markets and consumer preferences, creating effective marketing plans for the food industry
- Plan or lead an entrepreneurial venture/ "start-up" or apply intrapreneurial intervention in the food domain.
